3-gallon Bag-In-Box

No refrigeration needed. Dispensing from spigot does not allow air in, 2-year shelf life.

This retail and food service friendly product eliminates the labor of pouring syrup and washing dispensers. By a special patented process, we hot pack our maple syrup into the Bag-in-Box. The spigot does not allow air into the package, so syrup will not spoil even at room temperature, thus extending the shelf life for up to two years.

It comes with an attractive color label and can be placed directly on a shelf for immediate use. When the product is empty, simply recycle the cardboard box and recycle or dispose of the bag!

Nutrition Facts

About 379 servings per container

Serving size **2 Tbsp. (30mL)**
